Terms and Conditions for SecureGen AI

June 19, 2025

Acceptance of Terms

By accessing or using SecureGen AI, a network intrusion detection system (the "Service"), you agree to be bound by these Terms and Conditions ("Terms"). If you do not agree to these Terms, you may not use the Service. These Terms constitute a binding agreement between you ("Customer" or "You") and CodeMaestro.

Description of Service

SecureGen AI is a web-based network intrusion detection system that combines signature-based detection using Suricata with anomaly-based detection powered by machine learning. It employs federated learning for collaborative model training, ensuring data privacy through CKKS homomorphic encryption and Halo2 zero-knowledge proofs. The Service is designed to detect and mitigate cyber threats while maintaining compliance with data protection regulations.

User Accounts

To use the Service, you must create an account. You are responsible for maintaining the confidentiality of your account credentials and for all activities conducted under your account. You agree to notify CodeMaestro immediately of any unauthorized use of your account.

Use of Service

You may use the Service only for lawful purposes and in accordance with these Terms. You agree not to:

- Use the Service in any way that violates applicable laws or regulations.

- Attempt to interfere with, damage, or disrupt the Service or its infrastructure.

- Use the Service to develop competing products or services.

Intellectual Property

The Service, including its software, algorithms, user interface, and documentation, is owned by CodeMaestro and protected by international copyright, trademark, patent, trade secret, and other intellectual property laws. You are granted a non-exclusive, non-transferable, non-sublicensable license to use the Service for internal purposes during the subscription term.

Disclaimers and Limitations of Liability

The Service is provided "as is" without warranties of any kind, express or implied. CodeMaestro does not guarantee that the Service will detect all cyber threats or operate without errors. To the fullest extent permitted by law, CodeMaestro shall not be liable for any indirect, incidental, special, consequential, or punitive damages, including loss of profits, data, or business opportunities, arising from the use of the Service. Liability is limited to the fees paid for the Service during the subscription term.

Termination

CodeMaestro may suspend or terminate your access to the Service at any time, without prior notice, for conduct that violates these Terms, poses a security threat, or for non-payment of fees (with reasonable notice). Upon termination, you must cease using the Service and delete any installed components.

Governing Law

These Terms shall be governed by and construed in accordance with the laws of Jurisdiction. Any disputes shall be resolved in the courts of Jurisdiction.
